## OUR GLORY

**JKHRD** provides a wide range of career counseling to all its students with a huge variety of education courses available in the fields of Management, Technical, Traditional, Computer, Research, Paramedical Courses, Diploma and certification courses. Over here the counseling is always done keeping in mind the job prospect and the future of the student. The Universities for which it provides counseling are approved by University Grants Commission (UGC), All India Council for Technical Education (AICTE) and Distance Education Bureau (DEB). Presence of JKHRD

JKHRD offer online career counseling for students, Students can take admission from Pan India including Delhi, Pune, Punjab, J&K, Mumbai, Bangalore, Kerala and many other Indian cities. It has completed 03 successful years of its establishment and provides 24x7 customer support to its students who come from various parts of the world and are often no table to understand the terms well.

What makes JKHRD different from the other Institutes?

JKHRD and its team have managed to reach the most rural areas of some countries where no other colleges or universities have ever thought of going. They have made the efforts to make people understand the importance of education and how it impacts a person's career. Often candidates were forced to drop their education midway due to distance or other issues but JKHRD has bridged this gap and taken them towards a better life and career.

JKHRD Distance education offer a reasonable fee for its Students as it is aware of the fact that education is the right of every individual and simply because some come from low financial backgrounds that do not mean that they are deprived of the right to education. They do what is good for the students and see to it that all are provided with equal chances to education. Quality and Service are the highlights of this institute and it believes in providing quality service to the students. The institute also has highly skilled and qualified team of professional and teachers who always keeps the students updated about the notifications issued by the University. The teachers here are kind and hardworking and try to help the students as best as possible. Their creative study sector analyzes the talent in students and trains them in their area of excellence. Virtual Classes, Online examination, Effective Study Material, University student Help-desk, are some of the features of JKHRD Distance education and this has helped many to achieve that which they had only dreamed about.

Jammu and Kashmir Human Resources Development Distance education offers people a better opportunity to complete the higher education and learning that they had left behind and helps them to obtain excellent jobs. It also has a placement Hub called the JKHRD Education Foundation Placement Hub which ensures students get fitting jobs and have been acquiring many big brands including INDIGO, HDFC, etc. They provide students with international and India based jobs which are really good. So if you too have not completed your studies what are you waiting for? Call them for all the information and join them as soon as possible. They will help you complete your studies at a reasonable rate and also help you to get placed in a good company for a job. Now, that is an offer not worth missing!

# MESSAGE:

## Chairman message

Our vision is based on hard work, open communication, a strong emphasis on team work and a high level of responsibility. This visionary culture allows and emphasises our wards not only to adopt the present day challenges but also individual responsibilities to the society and our nation at large.

Learning should be based on doing things and not merely knowing things. Until and unless learning solutions relate to real life and motivate the learner to acquire and apply the knowledge, the whole process will remain superficial. Any engineering institution worth its name looks to optimize the productivity of global leaders. Our institution has set specific objectives and planned activities for achieving excellence in all spheres of technical education.

The service of the institution in creating personally mature, professionally equipped and service-oriented graduates is really worth mentioning. We strongly believe in academic excellence and do not compromise on teaching standards or discipline. These three things are the spring boards on which we operate.

People who feel good about themselves produce good results and people who produce good results feel good about themselves. We also believe in total learning and sharing.
